

A Review By  
Matthew Hogan

The boy with the lightning feet

By Sally Gardner

I love soccer so this book was going to be a winner I hoped. This story didn't disappoint me at all. I liked this story because Timmy is so talented even though he is plump. After eating healthy food he was able to be a better player. I liked the fact that everyone changes their attitude to be much better player. That included Timmy, Mickey and Gramps. Mickey was tripping Timmy and Gramps was feeding Timmy chocolate cake. Timmy did not feel confident in the beginning. A very important character was May who helped Gramps and Timmy change their lives for the better. Maybe Timmy was talented because his great great Uncle Vernon who came in magically to help him to be a better player. I liked the part when the man from Arsenal discovers Timmy's talent. I love Arsenal but I love Man U even more! I give this book a 10 out of 10 and recommend this book for soccer lovers or anyone who likes stories about people who never give up.
