

# The Willoughbys

By Lois Lowry

## Book Report by Koshi

The Willoughbys is a story about a family where the kids and the parents do not like each other very much. The children are Tim, Barnaby A, Barnaby B and little Jane. Their Mom and Dad go off climbing in the mountains and put their house up for sale leaving the kids with a Nanny. They do not like their kids very much. The kids were also planning to get rid of the parents by sending them on a sea voyage and having them eaten by piranhas.

My favourite character was Commander Melanoff because he was a good person and he was generous. He adopted a baby named Ruth who was left on his doorstep in a wicker basket. Then he adopted all of the Willoughby kids and married the Nanny. He made yummy candy which is my favourite thing to eat. My least favourite characters were the parents because they were mean and not very kind to their kids.

I give this story 10 Lickety Twists out of 10. I really liked it because it was funny how the parents were trying to get rid of the kids and the kids were trying to get rid of the parents.
