I think that this story deseves a 9 out of 10 beaucouse the author did such a good job of discribing that some times I thout I was in the book! I think that this book is for good 9 year old readers to about 12 or 13, (adults don't count). Moorchild is a book

○ kids should read with their parents, because there is a lot of complicated words. I hope that everyone that read this book liked it as much as me.
