

## September

In this book a group of kids get sent to a new grade 5 classroom, their names are: Giovanni, Destiny, Maximo, Willie and Tiffany. Their teacher, Mrs. Hill, starts to teach them how to make really good stories. Then one day a big announcement is made that there will be a writing contest and the best story will win. It will be open only to fifth graders. When Tiffany came everybody new her at once because of her dad, he is author and is a good story writer. People started to complain that they had been working so hard this year and that she should not be able to take part of the contest. I think that this was an interesting story. I rate this book 9 Jamaica's out of 10 Jamaica's.

### *The whale by Carsten*

Comes up breaths, goes back down to the bottom of the deep blue sea.  
So nice to see, wondering what is going to happen next. Then it comes, sticks out its tail  
and goes. Leaving the onlookers bewildered by what they saw.
