

Tom's Midnight Garden

By: Philippa Pearce

Tom's Midnight Garden is a really interesting book. My favourite part is that Mrs. Bartholomew actually turns out to be Hatty Melbourne. I think Tom's adventure in the garden is really intriguing and amazing. I can relate to Hatty and Tom because I like climbing trees too. The author used excellent description. I would recommend this book for ages 8-11. For me, this book gets 10 grandfather clocks out of 10.
