

Thomas Trew and the Hidden People

Author : Sophie Masson

Summary

This book is a fantasy adventure about a boy named Thomas, who travels from the 'Obvious World' to the 'Hidden world' which is full of interesting and weird characters and places and where dreams and nightmares are made. It's a little bit like the Harry Potter series but for younger children.

Rating

I give this book 10/10. I really enjoyed reading it and here are some of the reasons why:

- It was scary, exciting, funny and full of suspense
 - It was very descriptive which helped me to picture things in my mind
 - I liked the unusual names for people and places. My favourite name was 'Adverse Camber' which is a bit of a silly name because it means a bad slope or arch of a road surface.
 - I also liked the illustrations, especially of the weird creatures in 'Pandemonium'
 - The language used was a good mix – a little challenging but not too hard and I got to learn some new words, like 'talisman' and 'prehensile'.
- My mum said it was a good book to read aloud.

Favourite Character

My favourite character was not Thomas, or Pinch, or Patch, but it was actually Queen Lilith, because at the end of the book she turned out to be very fair and respected the rules – something that I was not expecting.
