

Oranges In No Mans Land

I would give this book a 9/10 for

Because I liked it alot; however I

Think ~~to~~ they didn't describe the characters

Very well. I learned to not grow up to hate others. At first I thought the book would be

scary but it really isn't. My sister still thinks its scary though. It is n't as scary as I thought

Because it didn't seem as scary and because I thought the grandma would get surgery. I liked

Samar the most because she sounds like a good friend, and also she gave every treasure she had away which was very nice.
